## We care about nature

Hos BIBUS SINDBY A/S har vi taget et aktivt valg for at mindske tab af biodiversiteten. Helt konkret har vi etableret et stort udendørsområde med vandhul, insekthoteller, sandbade, tørvestabler og frugttræer til bestøvning. Udadtill prøver vi at få vores leverandører til at tage aktivt stilling til, hvad lige netop de kan gøre. Alene kan vi ikke redde alverden - men sammen en god del.

**Vi vil altid gerne inspireres og udfordres, så har i nogen bud på, hvordan vi bliver endnu bedre så sig endelig til.**

*At BIBUS SINDBY A/S we have taken an active choice to reduce biodiversity loss. Specifically, we have established a large outdoor area with waterholes, insect hotels, sand baths, peat bogs and fruit trees for pollination. Externally, we are trying to get our suppliers to take an active interest in what they can do. Alone we can't save the world - but together we can save a lot.*

**We always want to be inspired and challenged, so if you have any ideas on how we can improve, please let us know.**

**BIBUS®**
