

EL multi STEP Feeder ELEVATOR

for cosmetics pieces like "mascara" type

Plates surface polished as mirror
No contact between the plates during the pieces' lifting

All the parts of machine at the contact with the pieces are covered with a special coating for not damage the pieces

Machines characterized by excellent strength and reliability, guaranteed by the completely mechanical lifting system, with the possibility to fine-tune the timing of the cycle for perfect synchronization with the line to be fed.

TUMAC with the new and innovative line of ELEVATORS plate, type **EL multi-STEP FEEDER**, offers a highly versatile machine, designed to meet the needs of handling the most extreme. Ideal machine for lifting and handling "delicate" pieces, where the action of contact between the surfaces must be minimized. Designed for the cosmetic field, the new Plate elevator **TUMAC EL multi-STEP FEEDER** can be used with belt conveyor or linear vibrators, equipped with devices and robot systems for management of the workpiece.

BASIC TECHNICAL FEATURES

Outlet Height	mm	850-1500
Step width	mm	350-1000
Step thickness	mm	15-60
Machine cycle	cycles/1'	30-35(*)
Hopper Capacity	dm ³	60 – 200
