Mobile Filtration System Type SMFS-U-DL-015-G

STAUFF is completing its extensive range of Mobile Filtration Systems of the SMFS series with another type:

The SMFS-U-DL-015-G is the first unit that has the filtration components including a high-quality motor/pump unit used along with a sturdy transport cart for 200l / 52 US GAL oil drums with a weight up to 250 kg / 551 lbs.

Either compact and versatile on the one hand, but also made for high loading capacity on the other hand, this filtration system is an essential tool for the in-plant service and preventive maintenance, either when transferring fresh fluids or purifying hydraulic and lubrication oil systems.

- § Extremely robust transport cart
- § Heavy-duty rollers, steerable and with locking device on the rear end
- § Convenient filling nozzle
- § High-quality gear pump
- § Nominal flow rate:
max. 15 l/min / 4 US GPM
- § Motor versions:
230 V 50 Hz or 400 V 50 Hz
- § Spin-On filter Element of the series SFC-57/58 including visual clogging indicator
- § Micron ratings available from 3 to 125 µm
- § Weight: approx. 85 kg / 187 lbs (without oil drum)

Oil drum not included in the scope of delivery.

High-quality gear pump

Including visual clogging indicator

Heavy-duty roller, steerable on the rear end

Oil Pump Nozzle
