4. Installation

The 852 054 dust filter cartridge can be mounted on and dismantled from the the filter plate using the Rd 100x4 mounting thread adapter - no tools required.

A hole with a diameter 108 mm must be drilled in the filter plate in order to mount the thread adapter. The mounting thread adapter should be spot-welded to the filter plate as shown in the drawing.

The Rd 100x4 mounting thread adapter is available from MAHLE in galvanized steel or stainless steel V4A - 1.4571.

6. Cleaning

We recommend cleaning the dust filter cartridge with the MAHLE multi-jet nozzle. The optimised geometry of the multi-jet nozzle guarantees excellent cleaning results with a significantly lower noise level.

The multi-jet nozzle is available from MAHLE in aluminium or stainless steel. It can also be purchased as part of the MAHLE MJD cleaning unit, comprising the nozzle, a tripod and various small assembly components. The tripod maintains an optimum distance from the cartridge to ensure maximum cleaning efficiency.
